

## Features:

- Suitable for all electronic throttle valves
- Stand-alone use or in cooperation with other ECU's
- CAN-communication with KMS ECU

Water resistant

- Powerful PID algorithm
- User-friendly software
- Automatic calibration
- Static RPM (idle) control
- Anti Lag (ALS) control
- Launch control
- Pit lane speed limiter
- RPM limiter
- Throttle valve characteristics mapping
- Throttle-blip for downshift

*The KMS ETC is supplied including main connector, communication cable, software and wiring instructions.*
